## ROYALTY COMES HIGH

Victoria and Her Family Have Cost  
John Bull \$125,000,000.

And Yet the Queen's Children Clamor  
Loudly for More.

Four Million Dollars Every Year,  
Exclusive of Palaces.

And Albert Edward Is Going to Get  
His Salary Raised \$180,000.

Her Majesty Victoria, Queen of Great Britain and Empress of India, is a thirty monarch, and in the fifty-second year of her glorious reign she asks John Bull to make another enlargement of her family income.

She gave birth to a large family of children, and now that each of the latter has become a parent, and with a small army of the sweetest grandchildren that ever gladdened the heart of a grandmother, they are clamoring for bread.

Now it happens that Her Majesty has sent her little request for more pin-money to Par-

QUEEN VICTORIA—ANNUAL SALARY, \$2,801,015. Lament every year since 1837, and her income has been increased from time to time by a loving and dutiful Parliament till that sort of pin-money has become a new form.

Mrs. Victoria has been obliged to withdraw her request and revise it, and yesterday it came up for debate in a new form.

Mrs. Victoria sets forth that she is indeed very poor; that her grandchildren are beginning to marry off, and each one of them wants a little something to set up keeping house on, and without the aid of the good people of England the dear creature would be obliged to provide for \$180,000 more.

Only a married or \$180,000 more.

All she asks in her amended request is that Parliament increase the Royal Grants to the Prince of Wales by the addition of \$180,000 a year to his income.

A very modest increase," says Right Hon. W. H. Smith, the Government leader in the House of Commons and First Lord of the Treasury. "It is not to be expected that the Queen should provide for the members of the Royal Family out of her income," says Mr. Smith; "nor was it contemplated when the settlement on the Prince of Wales was made that he should provide for his family."

A few years ago when the salary of the President of the United States was increased from \$25,000 to \$50,000 a year, there was an awful howl of indignation from the people of this country. It went up from every nook and corner of the land from Maine to California, from the great lakes to the Gulf of Mexico. Congressmen who voted for the increase were charged with hypocrisy, and it was declared that our republicanism was fast degenerating into the servility of royalism, and in many instances the public and political life of these Congressmen was cut off by indignant constituents.

This is a nation of 65,000,000 of people, and the richest in the world.

VICTORIA'S LITTLE SALARY.

The total population of Great Britain and Ireland is not nearly as great as ours, yet Queen Victoria is now in the enjoyment of an annual income of \$2,801,015.

Take the entire Duchies of Lancaster and Cornwall to yourself and share along with you over-increasing family as best you can."

MEAN MR. LABOUCHERE.

Mr. Labouchere pointed out that the frugal

Queen must be making quite a bank account out of what she saved from her allowance for the maintenance of her civil list. But even if she had given it from time to time to her children there must still be a snug sum left in her purse.

Then he suggested that a further reduction of the expenses of the Queen's household would produce the sum necessary to provide for junior royalties. He doubted the propriety of the Queen's completing the Queen's Lord Chamberlain's list to leave

PRINCE OF WALES—ANNUAL SALARY \$200,550. Stable Yard, or if her Master of the Horse were to drop out of sight. He even suggested that the offices of Lord Steward, Master of the Household, and other lords in waiting and four equerries were useless, and unnecessary to the maintenance of the monarchy and duty of a sovereign who was forever, like O'Ver

His, asking to move.

BY L. H. GIBBS'S PATE.

His Royal Highness Alfred, Duke of Edinburgh, enjoys a "salary" from the English taxpayers of \$141,510 a year, and Her Royal Highness the Princess Royal, who as the widow of the late Emperor Frederick of Germany receives a handsome income from Bismarck's Government, draws \$40,200 a year from the British treasury.

Her Royal Highness Helena, Princess Christian of Schleswig-Holstein, receives \$30,000 a year.

\$30,000 FOR PIN MONEY.

Her Royal Highness Princess Louise, the Marchioness of Lorne, has \$30,000 a year for pin money, and her late R. H. Princess Alice of Hesse received a like sum.

Her R. H. Arthur, Duke of Connaught, manages to bowl along in a luxurious way on an income of \$145,000 per annum, and H. R. H. Duke of Albany, who died two years ago, probably gave up trying to live because, with a wife and increasing family on his hands, he was allowed only \$125,000 a year. His widow, H. R. H. the Duchess of Albany, is allowed \$30,000 and the rent of the palace at Clarence.

H. R. H. the Duchess of Cambridge lives rent free in Cambridge Cottage, Kew Green, and supports her family on an income of \$20,000 a year, and H. R. H. Princess Augusta, Duchess of Mecklenburg-Strelitz, has \$15,400 to add to the income of her royal husband.

H. R. H. George, the Duke of Cambridge, gets \$104,310 a year, though he is Ranger of St. James, Marsh, Hyde and Richmond Parks, Field Marshal and Colonel of the Grenadier Guards.

ONLY A PALTRY \$25,000.

H. R. H. Princess Mary, of Teck, got \$15,000 a year till she was married in 1866, when \$10,000 was added for cigarette money for her husband and she was given the rent of White Lodge, Richmond Park.

H. R. H. Princess Frederica, Baroness of Pawl-Rammingen, who is the daughter of the Queen's cousin, the late King of Hanover, is also on the list. She has the rent of her residence at Dublin and \$21,920 in cash each year.

Her Royal Highness Princess Leiningen, a nephew of Mrs. Victoria, gets half pay as a Vice-Admiral, only \$2,965, and another nephew, Prince Victor of Hohenlohe Langenburg, Count Gleichen, as Governor of Windsor Castle and retired Vice-Admiral, receives \$9,300.

YET THE PEOPLE GRUMBLE.

And these little expenses are beginning to fret the good people of Great Britain, and they are asking each other, just as the good men of New York, Baltimore, Philadelphia and Charleston were asking them, "Aren't we paying a pretty big price for the pomp and glory of royalty? Are not a few people having a good time at the expense?"

ROYALTY'S COSTLY LUMP.

Here is a tabular statement of the royal allowances for a single year:

Her Majesty the Queen	\$2,801,015
H. R. H. the Prince of Wales	\$500,530
H. R. H. the Princess of Wales	\$141,510
H. R. H. Prince Arthur	\$40,200
H. R. H. Princess Louise	\$30,000
H. R. H. the Duchess of Albany	\$30,000
H. R. H. the Duchess of Cambridge	\$20,000
H. R. H. Princess Augusta	\$15,400
H. R. H. Duke of Cambridge	\$104,310
H. R. H. Princess Mary	\$25,000
H. R. H. Prince Edward	\$21,920
H. R. H. Prince Leiningen	\$2,965
H. R. H. Prince Victor	\$9,300

Total amount of Royal Family, \$4,017,175

PALEACE BENT NOT INCLUDED.

Only \$4,017,175 a year to the Queen, her children, her sisters and her cousins and her

rather expensive child, to the British people, but this does not include the maintenance of the royal parks, another nice item, nor does it include \$24,405 paid annually in maintaining servants

of King George III and Queen Charlotte, and to people who got used to receiving allowances from the Civil List under the reigns of George III and George IV, and George V.

During the first fifty years of her reign, from 1837 to 1887, Queen Victoria received from the British treasury for her own use and maintenance of her household in the palace and dignified befitting a sovereign \$24,325,000, while Prince Albert, her husband, received in addition to this \$1,150,000 in the twenty years prior to his death.

The present Prince of Wales is now about forty-eight years of age. He has been a rather expensive child to the British people, for he has had \$5,415,000 from their pockets, including a wedding present of \$117,000 in 1863, since which time his royal wife has received \$1,120,000 in allowances.

Those calculating letters, "H. R. H." are

the symbol of tremendous expense, apparently. Since Queen Victoria ascended the throne in 1837 the Gruchy family have received from the public treasury of Great Britain no less than \$124,330,000, and there has been expended besides in the maintenance of royal public parks and pleasure gardens upwards of \$700,000.

Mr. Smith, First Lord of the Treasury, as an argument in favor of the increase of the allowance to the Prince of Wales, says that British royalty is actually inexpensive in comparison with the royalty of other European governments.

ALL FOR DIGNITY.

These allowances are not paid for services or pretended services to the State, but simply on the theory that the dignity of Great Britain could only be sustained by maintaining the royal house in glittering and resplendent splendor.

In the same fifty-two years the people of the United States have been taxed for the salary of the President, out of which he pays all the expenses of his family except house rent and service, \$1,000,000.

There seems to be some apparent advantage in a system which makes the Prince of Wales and his family dependent on the nation instead of its masters and owners.

SUNDAY CLOSING FOR BARBERS.

Much Amusement Over a Philadelphia Revival of a 1794 Law.

PHILADELPHIA, July 26.—To a large majority of people in this city the movement under the Sunday law of 1794 to keep the barber shops closed on the first day of the week is assuming the appearance of a huge joke.

The trial of five barbers in Magistrate Clement's court yesterday was witnessed by a large number of people, who were highly amused at the exhibition in respect given by the five men before the court.

The five men were each fined \$4 and costs, and their cases will be appealed with a view to setting aside the law.

Most of the shops in the city were closed last Sunday, and the barbers were consequently driven to their homes by the larger shops and made the appearance of a huge joke.

Proprietors of these shops have requested their barbers to open on Sunday, and probably they will do business as usual.

THE LATEST SEA MONSTER FARE.

A New York Paper's "Serpent" Towed to the Dock at Bridgeport.

BRIDGEPORT, Conn., July 26.—Hundreds of people this morning viewed the "sea serpent" which figured in a sensational "special" printed in a New York morning paper about ten days ago.

The "serpent" was captured by Capt. Walsely, of the steaming Annie K. Wood, near the point in the Sound where the special had described it as sporting about in the water, off Long Island Sound.

The monster lay upon the city dock this morning. It is a large black body, attached to a long tail, which has broken loose from its moorings.

In a column near that which contained the account of the capture of the "sea serpent" in the morning edition of the paper, it was stated that the monster was a wild hairy man seen in the woods.
